Nurse Practitioner Healthcare Foundation

Vision Service Plan – VSP

XL Health

Want to know a secret?

Medicare covers screening
for diabetes and pre-diabetes.

Pass it on.

There are 35 million Americans who are 65 years or older. As many as 17 million of them have undiagnosed diabetes or pre-diabetes.

That's why government, professional and private sector organizations, co-chaired by the American Diabetes Association, Healthcare Leadership Council, and Novo Nordisk Inc., are joining forces to create awareness of the screening benefits for diabetes and pre-diabetes available under Medicare.

Millions of seniors are not getting the treatment they need to prevent heart disease, stroke, blindness, kidney disease and amputations. And millions more may be missing a chance to prevent or delay the onset of diabetes.

Help us get the message out about diabetes screening.
This is one secret we don't want to keep.

A National Drive to
Find the Undiagnosed

MedicareDiabetes
Screening Project
